Mayor Grant's Earnest Appeal for That \$5,000,000.

Meeting of the General Executive Committee To-Day.

To the Citizens of New York :

The Finance Committee recommended that \$5,000,000 be raised as a guarantee fund for the International Exposition proposed to be held in the city of New York in 1802. This recommendation was adopted by the Committee for the International Exsition of 1892, and the Pinance Committee has now carefully prepared a form for subseriptions to this fund.

It is of great importance that this fund should be subscribed at once, every day's delay being an embarrassment. I carneatly urge you to subscribe thereto liberally and people of the Units State -tly, th ditizens of ?

proposed Expo. ... worthy ... the United States holds among the countries of the world. HUGH J. GRANT.

The above earnest appeal by Mayor Grant may have borne fruit, but it was not apparent this morning, for every one was waiting for the Finance Committee to issue its subscription

This it began to do shortly before noon. At that time the first instalment of the small books arrived at the rooms of the Chamber of Commerce, and Secretary Wilson immediately began sending messengers scurrying over the city to deliver them to members of the General

The members of the General Committee are generously contributing to the preliminary expense fund of \$200,000.

To-day checks were received from Simpson. Crawford & Simpson for \$537,64, and Henry L. Hoguet contributed \$100.

Another meeting of the sub-committee of the General Executive Committee, which is engaged in the work of proposing necessary legislation, was held this afternoon at the Mayor's office.

Disagreement of the Jury on the Assemblyman's Trial for Bribery.

Silver Dollar" Receives the Congratulations of a Host of Eighth Ward Friends.

The jury in the case of Assemblyman Charles Silver Dollar Smith, charged with bribing voters, after being locked up all night, failed to ome to an agreement. They came into court just before poon to-day

and were discharged by Judge Martine. They stood nine to three for conviction.

The case was given to them shortly after 5 colds. Indeed, I hardly knew what to think. clock yesterday afternoon, and they wrestled

with it untiringly all night long. Although no definite information was given out, it was understood that the jury had split on the basis of 9 to 3 for conviction, and this was all that could be got out of the court officers.

The friends of the defendant were on hand at

an early hour, and many familiar Eighth District faces were seen about the court-room as early as 10 o'clock, as they gathered in little knots and discussed the situation, for the trial has been the all-absorbing topic of interest in that section of the town for the last two days. The general opinion was that Judge Martine's charge to the jury was a very fair and impartial one, and that it could have had no influence either way with inrors.

At any rate they seemed to know their own minds pretty well, for from the time they were sent to the jury-room they did not once ask for any further instructions from the Judge.

Silver-Dollar Smith made his appearance at 11 o'clock.

Silver-Dollar Smith made his appearance at 1 1 o'clock.

He came in with John J. O'Brien and John F. Brodsky. All these appeared to be considerably elated at the prospect, and the face of the still reigning boss of the district, though he is at present several feet outside the breastworks.

While disposing of pleadings and routine business a moment after the imy came in. Judge Martine took his seat on the bench, and Clerk Hall called out in a loud tone:

"John O'Brien to the bar."

The friends of the politician who were sitting around his gan to snicker.

"You a sarged with burglary in the third degree," a sumued the clerk.

"Is this John J. O'Brien ?" exclaimed avoice, whereat Lawyer Brodsky remarked to the Court;

"I hope Your Honor will not think that Mr. O'Brien is implicated in all the rascalities that are going on in town."

The crowd in the same properted that they were unable to agree Judge Martine simply said that he did not feel warranted in holding them any longer, and discharged them.

The lurers had agreed not to tell who had stood out for acquirital, but the last ballot was taken this morning. Last night they were seven to fice for conviction.

Assemblyman Smith was surrounded by his friends as soon as the result was annonneed, and congratulations poured in upon him from all sides.

Supreme Court, Chambers, was filled this orning with lawyers. Judge Andrews had appointed to-day to hear objections to the petitions of the Elevated Railroad companies for the appointment of commissioners in condemnation proceedings of prop-

When the cases were reached Judge Andrews When the cases were reached Judge Andrews stated that on a former occasion he had overruled objections to a similar petition, and as his decision had never been set aside, he should follow the same course in the pending cases.

Ex-Judge Dessar, upon this statement of the Court, declined to file objections in the 104 cases in which he was counsel.

# A BROOKLYN INSTANCE.

An Unusually Interesting Statement from the City of Churches.

It is for many reasons and in many respects a notable series in which the following interview appears. For some time past, two or three times each week, different interviews of this kind have appeared in the daily press. The interviews have been with persons resident to New York City, their names and addresses have been given, and their portraits have appeared to connection with their statements. These interview have been from New York, and it was thought at this time one from Brooklyn would be read with interest. The young gentleman speaking is well known in the City of Churches, as he is in New Yors, and what he seys cannot fall to gain attention.

It was at his home, at No. 2342 Central arm, that the writer found Mr. John Stuart. "Certainly," he said in reply to a question. "I can see no reason why I should not state the facts in my case to you and you are entirely at liberty to use them for publication. All my friends know that for the last two or three years I have been in a bad state of health.

"In what respect?"
"Well, I can hardly say. Some doctors told me that the trouble was with my throat, others that it was dys-pepsia and glomach trouble. Others said that in ath-letic cabibitions the exposures had brought on continual

MR. JOHN STUART, 240 Central avenue, Brooklyn, E. D.
"My throat troubled me continually. My votes would be boarse or sound husky and unnatural. My head would get filled up. Sometimes my nostrils would get so elegged up that I could not breathe through them. "Then a hacking kind of cough got hold of me, and, try as I would, I could not get rid of it. There would be

a dull, uncomfortable feeling in my head, over the eyes and across the bridge of my nose, "It seemed to me that I would catch cold without any eccasion. I would be all the time hawking and hem-ming and rei-ing. Pame, stabling like a knife, would Sometimes they would rut through to my shoulder-blades. Then sometimes a pain could take me in the side like a 'stitch,' so savers as to almost take my breatly away. " As the trouble slowly grew worse and got a stronger

hold on me, my eyes and ears became affected. The continual ringing and buzzing sounds in the ear were enough to distract one. My eyes would get dim and watery. My throat would feel raw and inflamed. "My appetite was fickle; what I would cat did not seem to agree with me and would rest like a load on my stemach. I would get up in the morning with a bad taste in my mouth, iceling more tired than when I went to bed. I would have little or no appetite for breakfast and would feet as if I could take nothing in my stomach. I had tried so many medicines and doctors without getting any help that when I went to Drs. Copeland and Biair I had very little courage or hope. They did not make any wonderful promises, but their charges were reasonable and I placed myself under their

"How did it result ?" "Well, I didn't expect to get well in a day from a trouble that had been years in coming on. I was patient and regular in following their treatment. I im proved slowly and steadily. My throat became clear My nostrils became free. I could breathe easily, and my nestris became free. I could breathe sastly, and there was no more, af that wheezing sound or of those cheking spells. The couph stopped. I cat well, sleep well and leed well now. I am gad to state the good the dectors have done me, and will be glad to verify in conversation whatever I have said here. Mr. Stuart lives, as stated, at 249 Central avo., Brokelyn. No aame is more favorably known among athletes than his. He has a host of champiouship medals and hadges, and the Brocklyn Athletic Club, or which he is the standard beaver, is one of the oldest organizations of the kind in that city.

Publishing Names.

A word of remark may not be out of place regarding the publishing of the names of patients treeted and cured. White such publication is made every two or three days in the papers, and the name and address of the patient given, so that the statement can be easily verified and soletantiated by any one, it should be said that all such statements are entirely voluntary,

"I should like to be trested," a lady remarked the other day, "but I would not like to have my name in the paper." Let it be ctated that Drs. Copeland and Blair never publish a name or statement without the full and tree cansent of the patient, nor do they publish one hundredth part of the feetimentals, letters and statements received by them from grateful patients. As observed, the statements given are entirely volunters, and are given by the patients for publication. Drs. Copeland and Blair would never publish the meatements of the statements in unless the gatient giving it understood that it was to be printed, and gave willing consent.
